

CAREER OBJECTIVE

I am a motivated and results-driven Computer Science Engineering student eager to apply my skills in software development, database management. With expertise in Java, Python, and SQL, along with hands-on experience in web development, I am well-prepared to build scalable and efficient software systems. I enjoy tackling complex technical challenges, utilizing advanced technologies, and collaborating with diverse teams to drive innovation. I look forward to contributing to success and technological excellence.

SKILLS

Programming languages : Java , C ,Python , JavaScript.
Web Development : HTML, CSS, JavaScript, React JS, Node JS, Servlets, JDBC, JSP.
Database Management : SQL, MySQL Workbench, MongoDB.
Other Skills: Docker , Kubernetes , Git Version control.

EDUCATION

Anurag University Btech - Computer science Engineering CGPA : 8.72	Hyderabad,Telangana 2022-present
Prathibha Junior College Intermediate - MPC Percentage : 94.2%	Mahabubnagar,Telangana 2020-2022

PROJECTS & PARTICIPATION

Task Management Application Developed a task management application with full CRUD functionality using Node.js, Express, and MongoDB. Backend: Built RESTful APIs with JWT authentication & role-based access control. Frontend: Developed an interactive UI using React.js with state management. Database: Used Mongoose for efficient schema validation & data handling.	Source code
Autonomous Container Security System This project creates an autonomous container security system that monitors, remediates vulnerabilities, and ensures compliance in real-time. It protects against supply chain attacks and misconfigurations. Vulnerability Detection & Auto-Remediation: Continuously scans containers and automatically fixes vulnerabilities. Docker Image Verification: Ensures only trusted images are deployed to prevent supply chain attacks. Compliance & Automated Response: Enforces CIS standards and automates threat response for quicker remediation.	Source code

ACHIEVEMENTS & CERTIFICATIONS

Achievements - Ranked in the top 20% on LeetCode with 300+ problems solved. - Achieved 50-days and 100-days streak badges on LeetCode (2024), demonstrating consistent coding and algorithm practice. 5 star Gold Badge in python ,C in Hackerrank.
Certifications - Develop Generative AI Solutions and NLP Processing with Azure OpenAI Service - Microsoft - Introduction to MongoDB - MongoDB - Prompt Design in Vertex AI - Google Cloud - Competitive Coding Skills Training Course 2025 - CCC
